

# Server Error in '/' Application.

*Transaction (Process ID 69) was deadlocked on lock | generic waitable object resources with another process and has been chosen as the deadlock victim. Rerun the transaction.*

**Description:** An unhandled exception occurred during the execution of the current web request. Please review the stack trace for more information about the error and where it originated in the code.

**Exception Details:** System.Data.SqlClient.SqlException: Transaction (Process ID 69) was deadlocked on lock | generic waitable object resources with another process and has been chosen as the deadlock victim. Rerun the transaction.

## Source Error:

An unhandled exception was generated during the execution of the current web request. Information regarding the origin and location of the exception can be identified using the exception stack trace below.

## Stack Trace:

```
[SqlException (0x80131904): Transaction (Process ID 69) was deadlocked on lock | generic waitable object resources with another process and has been chosen as the deadlock victim. Rerun the transaction.]
